AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listing of claims in the application.

LISTING OF CLAIMS:

- 10. (Currently Amended) An amorphous metal core transformer comprising:
 - a magnetic core composed of a plurality of amorphous metal strips;
 - a primary coil of a copper conductor material wound on said magnetic core; and
- a secondary coil of an aluminum conductor material wound on said primary coil and disposed outside said primary coil in a radius direction of said primary coil, wherein

an amount of heat generated by a current flowing through said primary coil is greater than an amount of heat generated by a current flowing through said secondary coil, so that the heat generated from the primary coil is dissipated in said magnetic core and in said secondary coil and;

said secondary coil has a greater length than a length of said primary coil in an axial direction of the primary and secondary coils.

- 11. (Cancelled)
- 12. (New) An amorphous metal core transformer according to claim 10, wherein said primary employs a rectangular copper wire, and said secondary coil employs an aluminum strip wire.
